General Chairs
Jiaqi Ma, UCLA
Yunsheng Wang, Cal Poly Pomona

Program Chairs
Ziran Wang, Purdue University
Qi Zhu, Northwestern University

Finance Chair
Jiang Li, Howard University

Local Chairs
Daisy Tang, Cal Poly Pomona
Walter Zimmer, UCLA

Registration Chair
Sidi Lu, William & Mary

Workshop Chairs
Yuhong Liu, Santa Clara University
Tingting Chen, Cal Poly Pomona

Poster/Demo Chairs
Hang Qiu, UC Riverside
Mohammad Husain, Cal Poly Pomona

Publication Chair
Liangkai Liu, Texas Tech University

Publicity Chairs
Can Cui, Bosch Center for AI
Bassam Alrifaee, Universität der Bundeswehr München
Yin Xu, University of Science and Technology of China

Steering Committee
Weisong Shi (Co-Chair), University of Delaware
Oleg Gusikhin (Co-Chair), Ford
Markus Helfert, Maynooth University
Shinpei Kato, Tier-IV
Sanjay Ranka, University of Florida
Nicolas Montes Sanchez, Cardenal Herrera University
Reuben Sarkar, SAE International
Kewei Sha, University of North Texas
Alexey Vinel, Karlsruhe Institute of Technology
Junshan Zhang, UC Davis

The 5th IEEE International Conference on Mobility: Operations, Services, and Technologies (MOST)

The IEEE International Conference on Mobility: Operations, Services, and Technologies (MOST) serves as a premier forum for researchers, engineers, and practitioners to exchange ideas, present innovations, and advance the future of mobility across land, air, and sea.

MOST 2027 invites high-quality submissions on innovative research, systems, prototypes, and real-world deployments in both indoor and outdoor mobility settings. We especially welcome contributions that address emerging technologies, system-level solutions, and interdisciplinary approaches to connected, autonomous, and sustainable mobility. Topics of Interest (not limited to):

- Foundation and world models for mobility
- Generative models for mobility
- Physical AI and embodied autonomy
- Autonomous vehicles, drones, boats, and robots
- Multimodal perception, planning, and control
- Traffic, transit, and fleet operations
- Logistics and last-mile delivery
- Connected vehicles and edge–cloud infrastructure
- Electric and hybrid vehicles
- Software-defined vehicles and over-the-air updates
- Shared, on-demand, and multimodal mobility services
- Safe, secure, and trustworthy mobility
- Sustainable, equitable, and accessible mobility

Paper Submission

- Portal: https://most2027.hotcrp.com/

Important Dates

- Paper Submission Deadline: Dec. 1, 2026
- Paper Acceptance Notification: Jan. 15, 2027
- Camera Ready Deadline: Feb. 10, 2027
- Travel Grant Application Deadline: Mar. 1, 2027
- Conference Dates: Apr. 4-7, 2027
