

IEEE MOST 2027 CALL FOR PAPERS

April 4-7, 2027, Pomona, California

General Chairs

Jiaqi Ma, UCLA

Yunsheng Wang, Cal Poly Pomona

Program Chairs

Ziran Wang, Purdue University

Qi Zhu, Northwestern University

Finance Chair

Jiang Li, Howard University

Local Chairs

Daisy Tang, Cal Poly Pomona

Walter Zimmer, UCLA

Registration Chair

Sidi Lu, William & Mary

Workshop Chairs

Yuhong Liu, Santa Clara University

Tingting Chen, Cal Poly Pomona

Poster/Demo Chairs

Hang Qiu, UC Riverside

Mohammad Husain, Cal Poly Pomona

Publication Chair

Liangkai Liu, Texas Tech University

Publicity Chairs

Can Cui, Bosch Center for AI

Bassam Alrifaaee, Universität der Bundeswehr München

Yin Xu, University of Science and Technology of China

Steering Committee

Weisong Shi (Co-Chair), University of Delaware

Oleg Gusikhin (Co-Chair), Ford
Markus Helfert, Maynooth University

Shinpei Kato, Tier-IV

Sanjay Ranka, University of Florida

Nicolas Montes Sanchez,
Cardenal Herrera University

Reuben Sarkar, American Center for Mobility

Kewei Sha, University of North Texas

Alexey Vinel, Karlsruhe Institute of Technology

Junshan Zhang, UC Davis

The 5th IEEE International Conference on Mobility: Operations, Services, and Technologies (MOST)

The IEEE International Conference on Mobility: Operations, Services, and Technologies (MOST) serves as a premier forum for researchers, engineers, and practitioners to exchange ideas, present innovations, and advance the future of mobility across land, air, and sea.

MOST 2027 invites high-quality submissions on innovative research, systems, prototypes, and real-world deployments in both indoor and outdoor mobility settings. We especially welcome contributions that address emerging technologies, system-level solutions, and interdisciplinary approaches to connected, autonomous, and sustainable mobility. Topics of Interest (not limited to):

- Foundation and world models for mobility
- Generative models for mobility
- Physical AI and embodied autonomy
- Autonomous vehicles, drones, boats, and robots
- Multimodal perception, planning, and control
- Traffic, transit, and fleet operations
- Logistics and last-mile delivery
- Connected vehicles and edge–cloud infrastructure
- Electric and hybrid vehicles
- Software-defined vehicles and over-the-air updates
- Shared, on-demand, and multimodal mobility services
- Safe, secure, and trustworthy mobility
- Sustainable, equitable, and accessible mobility

Paper Submission

- Portal: <https://most2027.hotcrp.com/>

Important Dates

- Paper Submission Deadline: Dec. 1, 2026
- Paper Acceptance Notification: Jan. 15, 2027
- Camera Ready Deadline: Feb. 10, 2027
- Travel Grant Application Deadline: Mar. 1, 2027
- Conference Dates: Apr. 4-7, 2027
